Col Wellman,

I would like to congratulate the Utah Wing on its recent string of accomplishments: The National Safety Award, 1st place at NCC, credit for a find, a record number of cadets attending encampment, success during the Survey Audit inspection, JLENS missions, Surrogate Predator support, hosting the SAR school, renovating the HQ building, NESAs attendees, and finally excelling during a comprehensive Compliance Inspection. Any wing would be proud to claim just one of these accomplishments, for the Utah Wing to shine during all of these events is unprecedented. The Wing's success is a tribute to every member of the Utah CAP "Team". Through your leadership as Wing Commander the exceptional staff members and dedicated CAP members in Utah are raising the bar for other Wings to reach for!

Again, congratulations to the Utah CAP!

John
